

COLBY COLLEGE  
WATERVILLE, MAINE

DEPARTMENT OF BIOLOGY

Oct 28, 1957

Dear Joshua,

I hope that you remember me!

I have a senior girl  
who wants to go into graduate work  
in Bacteriology. She is one  
of my current students and  
altho I do not know her well (I have  
been here at Colby only 2 mo)  
she seems to be a steady sort of  
girl. Her record shows  
1 A      27 B's      6 C's (semester grades)  
She has had Organic Chem + Physics I +  
a year of College Math.

Two Questions: -

1. Is it worth her while  
applying at Wisconsin?
2. Would you jot down  
her most likely prospects as regards  
other schools?

SHE NEEDS SOME ASSISTING  
or other financial aid

I have followed you  
camera from a distance,  
journal articles - group photos etc.  
but have missed you + wife at  
Wood's Hole.

We made the big change  
from <sup>Union To</sup> Colby in September this year  
after 16 years at Union !!

Regards from the  
Pine tree State

Alan Scott
